OTR-1156

24 December 1974

MEMORANDUM FOR: Director of Training

SUBJECT : OTR Course on Economics and Energy

1. Forwarded for your information are two memoranda prepared by East Asia and Latin America Divisions concerning the proposed International Economics and Energy Course. A survey of the DDO Divisions indicated a high level of interest in the Economics Course. The number of officers who expressed interest in attending such a course was 80, assuming the course would be given three or four times a year.

2. As you know, the recent evaluation process which the DDO just completed on all the operating Divisions underscored the DDO's desire for our case officers to be more knowledgeable in the economics and energy fields. Please let me know if there is anything else we can do to assist you in coming up with a course as there is a great deal of interest throughout the Directorate.
